

A dark, sleek smartphone is shown from the back, positioned vertically. It features a large camera lens on the left and a sensor strip on the right. The background is black.

the revolution has begun

**Welcome to the**  
**new security mindset.**

# the **new** security mindset.

**SIKUR today is a security mindset.** It is a new way of thinking about security. We are a platform capable of delivering end-to-end, reliable and trustworthy protection. We have created a way to provide total security on any application, be it banking, stocks, news, cryptocurrency, wallets or email. Now, even WhatsApp runs on SikurOS. We can incorporate widely available apps if they meet SIKUR's security criteria. We are the security that your communications need.

this is our core

# security

Controlling the hardware is fundamental to ensuring safety.  
With SIKURPhone you are totally safe. The **world's best** hackers  
tried to gain entry to SIKURPhone\*. They failed.

\* Tested by

hackerone

SikurOS delivers the highest security level for a mobile operating system, which makes the foundation of the SIKURPhone. Easily manageable by Sikur App Store\*, it sets an effective and robust environment for the Enterprise and Governmental entities, closing the doors for the most known security vectors and making it available to trusted Apps only.

\*Available in European summer.

# Quotation

Main quotes from  
**cryptocurrencies** in  
real time in one **app**

The image shows a smartphone screen with a cryptocurrency application. The app has a header 'Cryptocurrencies' with a bar chart icon. Below it is a 'Select currency' dropdown menu set to 'Dollar'. A list of five cryptocurrencies is displayed, each with its icon, name, ticker symbol, price, and percentage change. The background of the phone screen is a dark image of Earth from space.

Cryptocurrencies	
Select currency	Dollar ▼
 Ethereum ETH	\$104.54 -2.25%
 Bitcoin BTC	\$3,405.38 -1.58%
 Ripple XRP	\$0.29 -0.73%
 Litecoin LTC	\$33.15 -3.99%
 Dash DASH	\$67.19 -3.79%
